Coaching Tips: Many times, players try to get the shot with every bowl delivered or playing weight too early. The art of building a head is sometimes lost in the heat of battle. Building a head will minimise dangerous situations and provides opportunities to convert shots down to shots up once you have bowls in the head. Games can be won or lost in one or two ends, and we all look back at some games and think, if only I had drawn second shot, instead of dropping four, we may have won.
